

My Best Life Newsletter November 2020

We are very pleased to confirm that the bus bought recently has now been wrapped by our sponsors, who have committed to long term support for MBLA, including the funding of ongoing expenses of the bus.

In the photo is Noah Allam of Autonet, and our CEO Mr Blake Richards

The bus was stripped out of most of its seats last month by Ash and his team, so it is ready for a refit. In the interim it will be used in caravan parks as a camping vehicle

The bus wrapping is representing our major sponsor Buildsecurely Pty Limited which is about to launch its product range.

Healthy relationships is going well with Saskia working to improve the program with her team. She is hoping to launch the program in early December 2020

A few of the volunteers also enjoyed a day on Jervis Bay exploring the bay and having a trial of water skiing, and wakeboarding. More of these events for our volunteers will happen shortly.

We continue to thank Smiline for her great effort overseeing our website and Facebook, as well as acknowledging the continued work of Shannon our volunteer office manager, who is liaising with our volunteer network.
